WELLS MENSAH

AI Builder | Creative Strategist & Marketing Specialist
Toronto | wells.mensah@gmail.com | 647-657-9692 | linkedin.com/in/wellsmensah

PROFILE

Builder and tinkerer with 10+ years shipping consumer brands and technology products from zero to revenue. Combines hands-on technical ability - shipping production web applications, AI/ML pipelines, and data infrastructure as a solo technical founder - with deep marketing expertise (paid media, brand strategy, community growth, CRM).

Proven track record across SaaS, proptech, civic tech, and DTC e-commerce. Experienced people manager who has led cross-functional teams of designers, engineers, craftsmen, and creatives. Thrives in high-autonomy, fast-paced environments where strategy and execution aren't separate departments.

CORE SKILLS

Product & Technical	Next.js, React, Supabase, Vercel, Python, SQL, RAG/LLM pipelines, API integration
AI / ML	RAG pipelines, LLM integration (Claude, Qwen, Dashscope), vector embeddings, dual-LLM deliberation, prompt engineering, agentic workflows
Data & Analytics	Google Analytics, Looker Studio, R Studio, Power BI, SQL, Talkwalker, web scraping
Brand & Growth	Brand positioning, GTM strategy, audience segmentation, funnel optimization, campaign planning
Paid Media	Google Ads, Meta Ads, TikTok Ads, SEMrush, Google Analytics, Looker Studio
E-commerce & CRM	Shopify, Klaviyo, Mailchimp, lifecycle marketing, retention strategy
Leadership	Team management, contractor oversight, creative direction, cross-functional collaboration

EXPERIENCE

AI Builder & CEO | Rumate | Toronto

Jan 2026 - Present

Housing trust intelligence platform ("What FICO did for credit, Rumate does for buildings"). Solo technical founder building a B2C2G product: AI tenant assistant generates building-level intelligence aggregated for municipalities, insurers, and lenders.

- Designed and shipped full production platform in ~31 days: Next.js + Supabase + Vercel, including RAG-powered AI assistant (pgvector, 844 legal knowledge chunks), automated filing workflows, and real-time enforcement tracking.
- Built streaming LLM pipeline (Tori) with native Claude integration, agentic task queue with human-in-the-loop approval via n8n webhooks, and dual-LLM deliberation system (Claude + Qwen) for review classification.
- Developed 8-job notification pipeline: inbound email ingestion via Resend, OCR extraction, intent classification by Sonnet-powered Inbox Agent (with Haiku for labelling), and structured routing with prompt caching across all call sites.
- Built proprietary building scoring engine (People's Score) aggregating 5+ live data sources via headless Chrome scraping, Reddit JSON API, Google News RSS, and LTB filing data.
- Shipped T6 tribunal filing flow: 6 steps with auto-validation, one-click PDF generation, guided LTB portal checklist, landlord service via Tori, timeline tracker.
- Built privacy-by-design tenant verification sub-agent: OCR extracts 5 fields, stores only attestation against hashed user ID, deletes source document.
- Won People's Choice Award at DMZ Rise & Pitch Breakfast (2026). Completed DMZ Validator accelerator.

• Built and managed beta community of 11-12 tenants at live enforcement site; conducted 18+ customer discovery interviews across 5 cities and 2 countries.

Founder & Head of Marketing | GetCappd | London / Toronto

Nov 2021 - Jan 2026

Founded and scaled a custom jewellery brand from concept to internationally recognized business, overseeing brand strategy, marketing, sales, operations, and a growing team end-to-end.

• Built brand to significant revenue as a solo founder, managing the full P&L including sourcing, production, fulfilment, and customer service alongside all marketing.
• Grew a loyal community through organic social growth, influencer seeding, and culturally relevant storytelling at the intersection of fashion, music, and street culture.
• Led all social media strategy and execution across Instagram and TikTok, consistently driving engagement and inbound demand without reliance on paid advertising in early stages.
• Managed paid advertising campaigns across Meta, Google, and TikTok; optimized for CAC and ROAS. Achieved a 20% increase in click-through rates.
• Built and optimized Shopify e-commerce ecosystem; improved conversion through product storytelling, Klaviyo/Mailchimp email flows, and retargeting strategies.
• Led a cross-functional team of designers, craftsmen, content creators, and operations staff.
• Client portfolio: SharkNinja, Paramount, Davido (Grammy-nom, BET, MOBO), Soho House, Manifesto, Motus Studios, TheCombine/Tadiem.
• Closed business profitably to pursue Rumate full-time.

Marketing & Strategy Consultant | Freelance | London / Toronto

2017 - Nov 2022

• Advised on brand positioning, social media growth, and digital marketing strategy for early-stage and scaling brands.
• Supported product launches, content calendars, paid media setup, and CRM optimization.

TECHNICAL PROFICIENCY

Frontend & Full-Stack	Next.js, React, Tailwind CSS, Vercel, Shopify Liquid
Backend & Data	Supabase (PostgreSQL, pgvector, Edge Functions, RLS), Python, SQL, REST APIs
AI / ML	RAG pipelines, LLM integration (Claude, Qwen, Dashscope), vector embeddings, dual-LLM deliberation, prompt engineering
Scraping & OSINT	Headless Chrome (Puppeteer), Reddit JSON API, Google News RSS, CKAN, MLS API reverse engineering
DevOps & Tools	Git, pnpm, n8n (workflow automation), Resend (transactional email), Claude Code, Windsurf IDE
Marketing Tech	Google Ads, Meta Ads, TikTok Ads, SEMrush, Klaviyo, Mailchimp, Shopify, Google Analytics, Looker Studio

EDUCATION

BSc (Hons) Digital Audio Engineering - University of West London, 2017

3.7 GPA | Music Business, Music, Philosophy (A-Levels, Richmond College, 2014)

RECOGNITION & PROGRAMS

• DMZ Validator Accelerator - Cohort 2026 (Toronto Metropolitan University)

- People's Choice Award - Rise & Pitch Breakfast, 2026 (audience vote)
